WEST TROY AND GREEN ISLAND.

VOLUME THIRTY-ONE.

PUBLISHED BY ADAMS, SAMPSON & CO.,
PRINCIPAL OFFICE, 91 WASHINGTON STREET, BOSTON, MASS.

TROY:
WILLIAM H. YOUNG,
No. 216 RIVER STREET.

Entered according to Act of Congress, in the year 1859, by ADAMS, SAMPSON & Co., in the Clerk's Office, of the District Court of the Northern District of New York.

PREFACE.

The Thirty-first issue of the Troy City Directory is now presented to the citizens, with the assurance that its value will be fully equal to any of its predecessors.

Only those who have been engaged in this labor, can form a very accurate idea of the trouble and perplexities attending the getting up of such a work. In the preparation and compiling of all other books, considerable assistance may be gained from others in the same field; but in the making up of a Directory the work has to be commenced anew each year, and every fact must be obtained from original sources; nothing is presumed, or copied from the previous Directory.

The many and important changes in the business community during the past year, all of which we have taken especial care to collect, render a new edition of the work doubly needed; and there has probably never before been a Directory of this city issued which differs so much from its predecessor as the present volume.

The publishers return their thanks to all who have assisted or encouraged them in this enterprise, also to the citizens generally for their promptness in giving the necessary information; and another year, should they meet with sufficient encouragement, will add to its pages a Directory of the town of Lansingburgh, which will prove a valuable acquisition to the work.

NAMES OF CITIZENS

In this Directory which were in the First Directory, 1829.

THE TROY DIRECTORY FOR 1829, was the firſt of the series of our City Directories, and was publiſhed by John Diſturnell. It gave the Names and Occupations of Reſidents, of the "firſt four wards of the city," which compoſed the entire city, with the exceptions of Albia and the Nail Factory, and they had at that time only a few inhabitants.

The names in that Directory numbered	2080
Names in the preſent iſſue,	9861
Increaſe,	7781

In 1829 SAMUEL MCCOUN was Mayor, NATHAN DAUCHY and GEORGE VAIL two of the three Superviſors, JAMES A. ZANDER, collector, LYMAN J. RUNDELL, conſtable, MOSES I. WINNE, fence viewer, GARDNER W. RAND, meaſurer of charcoal, EBENEZER PRESCOTT, aſſeſſor, and HARVEY SMITH, city ſuperintendent.

On comparing the Directory of 1829 with the Directory of this year (1859-60), we find that thoſe whoſe names appeared in both Directories—who reſided here thirty years ago, and who reſide here now—number only *one hundred and eighty-ſeven*. The other reſidents of 1829, as recorded in the Directory of that year, have either removed to other points, or are deceaſed. OF

MERCHANTS AND MANUFACTURERS

IN

NEW YORK, ALBANY AND BOSTON.

THE MOST BEAUTIFUL AND PERFECT WHITE IN USE.

STIMSON'S
PARLOR WHITE.

To meet the inquiry of persons wishing a Paint superior to White Lead, French or American Zinc, the PARLOR WHITE is specially designed, combining as it does,

PURITY OF WHITE

and durability; having by practical test, been found to excel in these and other desirable properties, any other pigment. It is particularly commended to the favorable notice of persons requiring the very best finish in

DWELLING HOUSES, FANCY STORES,
STEAMBOAT OR SHIPS' CABINS;

will be found also superior to any other White Paint for outside work. For inside work, where gloss finish is required, it forms the most beautiful enamel when applied with our white varnish.

This Paint, either for inside or outside work, will be found as cheap and economical to use, as any other, where beauty and durability are considered. The article is put up securely in Tin Cans, of 10 and 20 lbs., also in 100 lb. kegs, on which are labels giving directions for mixing and application. Orders from any distance by express or otherwise, are invited, and will be promptly and satisfactorily answered.

STIMSON, VALENTINE & CO.,

Sole Manufacturers, 36 India St., Boston.

Professor A. A. HAYES, State Chemist, pronounced the Parlor White as Perfect White Paint as he had ever tested.

MAYNARD & NOYES' WRITING INK

THE MANUFACTURE OF THIS INK WAS COMMENCED IN 1816,
And the quality has now been tested by the public for more than forty years. During this time it has been constantly increasing in public favor and patronage, and is now the leading article in the country. Those who may be ignorant of its superiority and reputation, are invited to read the following testimonials, and to make trial of it themselves. When the best judges, after using it more than twenty-five years, express themselves in one manner concerning its superior excellence, it is quite evident that no one need be troubled with bad Ink.

Bowdoin School, Boston, Jan. 7, 1857.

Messrs. MAYNARD & NOYES: I have used your Ink in the Writing Department of this School the past thirty years, and take pleasure in renewing my testimonial of its superior quality. It flows freely from the pen, its color is brilliant and permanent, and it combines all the necessary and desirable qualities of good ink.

JAS. ROBINSON, Writing Master.

Boston, January 10, 1848.

Messrs. MAYNARD & NOYES: Gentlemen—It is now, I believe, more than twenty years since the School Committee passed an order for using your Black Writing Ink in the City Schools. I have used it during that period, and deem it a *first rate article*, and cheerfully recommend it to others. It *flows freely* from the pen, and increases in blackness after being committed to Paper, and the color is *durable*. I know of no Ink equal to yours, and I have tried many kinds, both English and American.

P. MACKINTOSH, JR.,
Principal of Writing Dep. Hancock School.

Office of Merchants' Ins. Co., Boston, Jan. 2, 1856.

Messrs. MAYNARD & NOYES: Gentlemen—I have used your Writing Ink generally for the last twenty-five years. In 1847 I renewed my certificate of its excellence, and having continued its use ever since to my entire satisfaction, my opinion is confirmed in its superiority. *It flows freely from the pen, and is, in all respects the best Ink I have ever used.*

GEORGE HOMER, Secretary.

Registry of Deeds, Boston.

Messrs. MAYNARD & NOYES: I have made use of your Writing Ink for the Recording of Deeds, &c., the past *twenty-five years*, and take pleasure in renewing my testimonial of its superiority. From appearance of the records in my office, I consider it particularly adapted for all purposes where *permanency of color is requisite or desirable, as my oldest records prove it to be unalterably black.*

H. ALLINE, Register of Deeds.

COPYING INK.

This Ink gives a copy as distinct and perfect as the original, and combines all the properties of our Writing Ink. This quality particularly adapts it to Counting House use, as it answers all the purposes for which a writing liquid is wanted. Also,

BLUE, RED AND CARMINE INKS,

DIRECTION LABELS

OF

Parchment, Cloth & Paper-Cloth,

AND TAGS OF EVERY DESCRIPTION,

MANUFACTURED BY

VICTOR E. MAUGER,

No. 115 Chambers Street, New York.

The subscriber having perfected his Machinery for the Manufacture of the above DIRECTION LABELS, would respectfully intimate to the Manufacturers, Merchants, Bankers, Express Companies, and Hotel Proprietors of the United States, that he is now prepared to execute Orders for any quantity at the shortest notice, and in the best possible manner.

Although, considering their recent introduction, the LABELS are pretty generally known and appreciated; for the benefit of those who may not as yet have used them, from amongst their numerous advantages, the following may be submitted:

1. Their Cheapness.—The price of them generally exceeding little, if any, the price paid for COMMON CARDS; indeed, in many instances, the latter costing MORE.

2. Their Strength and Durability.—The Material (at least the Cloth and Paper Cloth), is manufactured for the *express purpose*. The Parchment Labels are made from *Genuine British Skins only*, well known to be the strongest material in existence for writing purposes. The eyelet being strongly inserted through *two to four ply of the folded Parchment, Cloth, and Paper Cloth*, the liability of their giving way at that point is reduced to a minimum. The PARCHMENT AND CLOTH LABELS are confidently recommended as being capable of withstanding almost any amount of bad weather and hard usage.

3. Their Convenience.—This is apparent; a dozen may be written out and securely attached to the same number of different packages in half as many minutes. Besides the foregoing, Merchants well know, when sending away goods, the advantage of having their names and addresses attached to them, in case of mistake in forwarding, or otherwise.

4. The Printed Direction Labels are obviously the Best, most Striking, and Cheapest advertisement in use.
